

City of Lompoc

Lompoc, California
Comprehensive Annual Financial Report
For Fiscal Year Ended June 30, 2003

About the Cover:

The photo featured on our cover was taken in the late 1800's. It was the site of the Tolbert's Fashion Stables. The actual building was constructed in 1878 and torn down in the 1960's. It was located on East Ocean Avenue, just west of the northwest corner of "F" street. The Lompoc Historical society provided this photo and accompanying information.

October 29, 2003

Honorable Mayor, Members of the City Council
Lompoc, California 93438

Honorable Members:

State law requires that all general-purpose local governments publish within six months of the close of the fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a licensed certified public accountant(s). Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Lompoc for the fiscal year ended June 30, 2003.

This report consists of management's representations concerning the finances of the City of Lompoc. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Lompoc has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Lompoc's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Lompoc's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

This year's report has been reformatted to comply with the new financial reporting model developed by the Governmental Accounting Standards Board (GASB) 34. The new financial reporting model completely changes the format of the City's financial statements. It is intended to improve financial reporting by adding significant information not previously available in local government financial statements.

In addition to the fund-by-fund financial information currently presented in the City's financial statements, we are now including government-wide financial statements. The government-wide financial statements include a Statement of Net Assets that provides the total net equity of the City including current year infrastructure and the Statement of Activities that shows the cost of providing government services. These statements have been prepared using the accrual basis of accounting versus the modified accrual method used in the fund financial statements. A reconciliation report is provided as a key to understanding the changes between the two reporting methods. In addition, the new reporting model includes an emphasis on the City's major funds as shown in the Governmental Fund Statements. These new statements combined with other information are further analyzed in a new narrative section called Management's Discussion and Analysis (MD&A). The MD&A provides "financial highlights" and interprets the financial reports by analyzing trends and by explaining changes, fluctuations and variances in the financial data. In addition, the MD&A is intended to disclose any known significant events or decisions that affect the financial condition of the City. The MD&A begins on page 3.

The City of Lompoc's financial statements have been audited by Paul Moe, Certified Public Accountant. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Lompoc for the fiscal year ended June 30, 2003 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Lompoc's financial statements for the fiscal year ended June 30, 2003, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The City is also financially accountable for the City of Lompoc's Redevelopment Agency. This entity is considered to be a component unit of the City of Lompoc and the activities of the Agency have been blended into the reporting entity.

This report has been prepared under the "single audit" concept. Under this approach, one Federal agency is recognized as the cognizant audit agency as assigned by the Office of Management and Budget. In the case of the City of Lompoc, Housing and Urban Development has been assigned this responsibility. The financial report is forwarded to the cognizant agency only when any one of six conditions established by the agency are met. The City did not meet any of these conditions, therefore, was not required to file a financial report with the cognizant agency.

Profile of Government

The City of Lompoc is a general law city, incorporated under the laws of the State of California in 1888. The City has the council-administrator form of government with a five-member council with four council members being elected for four-year overlapping terms and the mayor being elected for a two-year term. The position of City Administrator is filled by appointment of the Council to serve as administrator of the staff and to carry out the policies of the Council. The City Attorney, City Clerk and City Treasurer are also appointed by the Council.

Lompoc is a full service City with 380 budgeted full-time employees. This includes public safety (police and fire), highways and streets, public improvements, planning and zoning, building inspections, municipal airport, public transit, library, parks and recreation, utilities (water, electric, wastewater, refuse collection and landfill), and general administrative services.

Lompoc is located in northern Santa Barbara County, approximately ten miles inland from the Pacific Ocean. The City is 150 miles northwest of Los Angeles and 290 miles southeast of San Francisco. The City has an estimated population of 41,865 and its boundaries encompass 10.5 square miles.

The City enjoys a mild climate. Average temperatures range from 64 degrees in the winter to 72 degrees in the summer, with an average of over 300 clear or partly cloudy days per year. Precipitation averages 14 inches per year, with most rainfall occurring from December through March.

Budgetary Controls

The annual budget serves as the foundation for the City's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Budgetary control is maintained at the department level. The City Administrator may transfer funds between departments within any fund; however, any revision that requires new appropriations in any fund by more than one thousand dollars must be approved by the City Council.

The City also utilizes the encumbrance accounting system as a management control technique to assist in controlling expenditures.

Factors Affecting Financial Condition

The City of Lompoc currently enjoys a favorable economic environment and local indicators point to continued stability. The City has a diversified economy based on commerce, agriculture and natural resources industries. The key economic areas vital to the City's tax base are: food product retail establishments and general retail centers, auto sales, restaurants and hotels. Additionally, government activities at Vandenberg Air Force Base and the Federal Correction Facility are an important factor with regards to the economic well-being. The Air Force Base employs 7,509 military, civilian and contract personnel and the correctional facility employs 739 personnel.

The County of Santa Barbara (which includes the City of Lompoc) has an employed labor force of 202,300. Labor market conditions in Santa Barbara County, also known as the Santa Barbara-Santa Maria-Lompoc Metropolitan Statistical Area, have been steadily improving over the last 5 years. The County continues to record job growth and declining unemployment rates. While the State of California has an unemployment rate of over 6%, Santa Barbara County has remained stable with an unemployment rate of under 4%. Other than San Luis Obispo County, Santa Barbara County has the lowest unemployment rate of all counties in California.

The City of Lompoc has an employed labor force of 18,900 with an unemployment rate of 5.1%. Employment is dominated by services, retail trade and government. It is expected that the greatest future, nonagricultural, job growth will be in the same three areas. Services is the fastest growing industry with a projected growth rate of 18.2%. Government at 9.6% and retail trade at 11.4% are also expected to grow rapidly the next five years.

Long-term Financial Planning

The City will be developing plans to construct an aquatic center containing three pools; an Olympic size swimming pool, a therapeutic pool and a children's pool. In August, 2002, the property owners of Lompoc approved the formation of the Lompoc Park Maintenance and City Pool Assessment District. Revenue of approximately \$214,000 will be generated annually to be used for improvements and enhanced maintenance of park and recreation facilities as well as construction of the aquatic center. The estimated cost to construct the aquatic center is \$8.5 million. The City anticipates issuing certificates of participation bonds with construction beginning in the spring of 2004. Debt service of the bonds will primarily come from three sources; General Fund revenues, Redevelopment Agency tax increment and the revenue from the assessment district. It is anticipated that the majority of operating costs will be financed with user fees generated from pool use.

A major capital upgrade will be made to the Wastewater Treatment Plant to provide needed process redundancy and to comply with the Water Resources Control Board permit requirements. Preliminary cost estimates are \$50,000,000 with an estimated completion date of 2006. The City will fund approximately \$33,500,000 of the improvements with the issuance of sewer revenue bonds and loan proceeds from the state revolving loan fund. The remaining financing will be provided by the Vandenberg Air Force Base and the Vandenberg Village Community Services District. The project is part of the Wastewater Treatment Plant Master Plan.

The Water Fund will be constructing Well number 10 to augment the supply of water during periods of drought. The estimated cost is approximately \$1,750,000. The Water Fund will also be reconstructing the administration building, installing additional filters to the treatment plant and making improvements to the booster station at the water treatment plant. The estimated costs for these projects are \$1,650,000, \$2,800,000 and \$2,390,000. All the Water Fund capital projects will be funded through the issuance of water revenue bonds.

Cash Management

Cash Resources of the individual funds are combined to form a pool of cash and investments. Cash temporarily idle during the year was invested in obligations of the U.S. Government or its agencies, certificates of deposit, passbook savings demand deposits, Corporate Notes and the Local Agency Investment Fund, consistent with the City Council Investment Policy.

The City's investment policy is designed to maximize the productive use of assets entrusted to its care and to invest and manage those funds wisely and prudently. Criteria for selecting investments and the order of priority are: (1) safety, (2) liquidity and (3) yield. The basic premise underlying the City's investment policy is to ensure that money is always available when needed while at the same time reaping the highest and best return. Accordingly, deposits were either insured by Federal depository insurance or collateralized.

Risk Management

The City joined the Central Coast Cities Self Insurance Fund in 1987 to provide for the transfer of risk for general liability. The limit of insurance provided on June 30, 2003 was \$15 million, combined single limit occurrence. The insurance deposit paid for this coverage was \$171,755.

The authority is a pool of cities, which has formed an insurance group. Each member city pays into the pool annual deposits. In addition, various risk control techniques, including annual safety audits and employee accident prevention training, have been implemented to minimize loss.

Additionally, the City has all risk property insurance as indicated on a list of scheduled property. The annual premium for property insurance was \$82,027. The policy provides replacement cost coverage with varying deductibles as scheduled.

The City is partially self-insured for Worker's Compensation. The self-insured retention is \$300,000 and the related premium for this coverage was \$52,030.

All claims are investigated, valued, reserved, defended and/or settled in accordance with generally accepted insurance industry practices. There are no known existing claims that would exceed the City's applicable coverages.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lompoc for its comprehensive annual financial report for the fiscal year ended June 30, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such comprehensive annual financial report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Lompoc has received a Certificate for the last 14 years. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA.

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the Finance Department. Each member of the department has my sincere appreciation for the contribution made in the generation of this report. My thanks to the Mayor, the City Council and the City Administrator for their support of the financial operations of the City.

Respectfully submitted,

John C. Walk
Management Services Director

APPROVED FOR SUBMITTAL TO CITY COUNCIL:

Gary P. Keefe
City Administrator

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council
City of Lompoc
Lompoc, California

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lompoc, as of and for the year ended June 30, 2003, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis,

evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lompoc, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund and Street Development Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated October 29, 2003 on my consideration of the City of Lompoc's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

The accompanying schedule of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements of the City of Lompoc. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The Management's Discussion and Analysis on pages 3 through 17 is not a required part of the basic financial statements but is required supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the Required Supplementary Information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise

the City of Lompoc's basic financial statements. The supplementary information, such as the introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on them.

October 29, 2003

Paul B. Moe, C.P.A.

Management's Discussion and Analysis

As management of the City of Lompoc (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2003. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages iv – x of this report.

Using this Annual Report

The primary focus of local government's financial statements for the last 20 years (summarized fund type information) has been discarded. The new (and clearly preferable) focus is on both the City as a whole (government-wide) and the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the City's accountability.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government wide financial statements (see pages 19 – 21) are designed to be corporate-like in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary government. The focus of the *statement of net assets* (the "Unrestricted Net Assets") is designed to be similar to a bottom line for the City and its governmental and business-type activities. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. This statement, for the first time, combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long term obligations.

The *statement of activities* presents information showing how the government's net assets changed during the recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, highways and streets, parks and recreation, and community development. The business-type activities of the City include electric distribution, water, sewer, solid waste services, transit, recreation, airport services and community center.

The City currently has no discretely presented component units.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements. The basic governmental fund financial statements can be found on pages 22 - 29 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water, Electric, Wastewater, Airport, Solid Waste, Transit, Recreation, River Park Campground, and Lompoc Valley Community Center. The City uses *internal service funds* to report activities that provide supplies and services for the City's other programs and activities. The City uses internal service funds to account for its fleet of vehicles, insurance, communications, and central stores inventory. The Internal Service Funds predominantly provide services to governmental activity functions and therefore are included within the *governmental activities* of the government-wide financial statements. The basic proprietary fund financial statements can be found on pages 30 - 34 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's

own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on page 35 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37 - 82 of this report.

Financial Analysis of the City as a Whole.

Since this is the first year of GASB 34 implementation, there is no prior year comparable financial information. Therefore, discussion of financial analysis will be limited to current year activities only. Future MD&A's will present current and prior year financial information for comparative purposes.

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$176,352,794. The largest portion of the City's net assets (69 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses its capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF LOMPOC'S NET ASSETS

	Governmental Activities	Business-type Activities	Total
	2003	2003	2003
Current and other assets	\$ 34,621,694	\$ 39,143,390	\$ 73,765,084
Capital assets	70,855,803	61,558,159	132,413,962
Total assets	105,477,497	100,701,549	206,179,046
Current liabilities	6,483,548	3,753,585	10,237,133
Long-term liabilities	6,148,684	13,440,435	19,589,119
Total liabilities	12,632,232	17,194,020	29,826,252
Net assets:			
Invested in capital assets, net of related debt	69,077,648	52,023,742	121,101,390
Restricted	2,830,524	9,570,038	12,400,562
Unrestricted	20,937,093	21,913,749	42,850,842
Total net assets	\$ 92,845,265	\$ 83,507,529	\$ 176,352,794

The balance of unrestricted net assets of \$42,850,842 represents the amount that may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

The condensed summary of activities, which follows, shows net assets decreased by \$657,160 during the year.

CHANGES IN CITY OF LOMPOC'S NET ASSETS

	<u>Governmental Activities</u>	<u>Business-type Activities</u>	<u>Total</u>
	<u>2003</u>	<u>2003</u>	<u>2003</u>
Revenues:

Interest on long-term debt	71,502		71,502

	Governmental Activities	Business-type Activities	Total
	2003	2003	2003
Business-type activities:			
Water		6,065,424	6,065,424
Electric		15,898,849	15,898,849
Wastewater		5,293,930	5,293,930
Solid Waste		4,720,041	4,720,041
Airport		295,501	295,501
Transit		1,192,911	1,192,911
Recreation		262,688	262,688
River Park		69,438	69,438
Lompoc Valley Community Center		146,458	146,458
Total expenses	26,898,438	33,945,240	60,843,678
Increase (decrease) in net assets before transfers	(1,091,168)	434,008	(657,160)
Transfers	1,202,249	(1,202,249)	-
Increase (decrease) in net assets	\$ 111,081	\$ (768,241)	\$ (657,160)
Beginning net assets	92,759,087	85,183,372	177,942,459
Prior period adjustments	(24,903)	(907,602)	(932,505)
Ending net assets	\$ 92,845,265	\$ 83,507,529	\$ 176,352,794

As shown above, the City's revenues totaled \$60.1 million, with 60% generated from Charges from Services. Of this percentage, only 16% of Charges for Services is generated from Governmental Activities. The largest source of revenue for Governmental Activities comes from taxes at 43%. This is typical in that traditional services provided by a city such as public safety, parks, recreation, and public works are primarily funded from property, sales, transient occupancy, motor vehicle and other local taxes. In contrast, Charges for Services represents 89% of total Business-Type Activity revenues. As mentioned previously, Business-Type Activities include enterprise fund operations such as Water, Wastewater, Electric, and Solid Waste funds, all of which recover their costs through user fees and charges.

Expenses to the City totaled \$61.0 million. The largest individual category of Governmental Activities' expense in public safety, representing 34% of total Governmental Activities' expenses.

The net assets of Governmental Activities increased only \$111,081, effectively breaking even for the year. The net assets of the Business-Type Activities declined by \$768,241 reflecting operating losses in the Wastewater, Water and Electric Funds. Rates have been increased in both the Water and Wastewater Fund to offset these operating losses in future years.

Revenues by Source – Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City's uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$22,773,512.

Approximately 75 percent of this amount (\$16,501,677) constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$1,225,359), or 2) for a variety of other restricted purposes (\$5,046,475).

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$4,075,332, while the total fund balance was \$5,595,710.

The fund balance of the City's General Fund increased by \$1,089,665 during the current fiscal year. Key factors in this growth are as follows:

- An increase in property tax revenue of \$143,012 or 7% over the prior fiscal year due primarily to increase assessed values and residential development.
- An increase in sales tax revenue of 3 percent or \$104,663 over the prior fiscal year due primarily to better local economic conditions.
- An increase in licenses and permit fees of \$177,000 resulting from increased building permit activity and plan check fees.
- Other financing sources increased by \$178,000 due to the greater operating transfers resulting from reimbursements from the Street and Road Funds (Special Revenue Funds) to the General Fund. These transfers have been eliminated in the basic financial statements.
- An increase in vehicle license fees of \$167,000 or 7% from the prior year.
- The increase in revenue items was partially offset by salary increases.
- The City also maintains tight control on all general fund expenditures.

The Street Development Fund is used to account for receipts and disbursements of street development funds. Financing is provided by development impact fees which are restricted for street improvement purposes. Minor activity occurred in the Street Development Fund with expenditures on streets and capital outlay of \$58,766. Revenue was \$36,098 less than forecast because developer impact fees did not materialize as forecast.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net assets of the enterprise funds at the end of the year amounted to \$21,913,749. Total net assets for the enterprise funds declined by \$768,242. The factors contributing to this are general increase in operating expenses for the primary major funds of Water, Wastewater, Electric and Solid Waste Funds. These operating increases have resulted in operating losses for the current fiscal year. Management has taken action to offset these losses by increasing rates for the Water, Wastewater and Solid Waste Funds. These increases take effect in fiscal year 2004 and should remedy the losses sustained in the current year.

General Fund Budgetary Highlights

The final budget for the General fund at year-end was \$4,062,933 greater than the original budget. This increase over original is primarily due to the additional appropriation of \$2,000,000 in capital expenditures for the anticipated construction of the three-pool aquatic center. However, at June 30, 2003, construction had not begun. The City plans on issuing bonds in the spring of 2004 at which time construction should begin. Appropriation of police grant funds of \$431,357 occurred after the original budget document had been approved. The amount of grant funds are generally not known until after the beginning of the fiscal year. There was also \$626,000 of additional appropriations resulting from a carryover from the prior budget for the installation of new carpet and furniture replacement. The project had been scheduled for the current year's budget but had been delayed until fiscal year 2004. The remaining additional appropriations were due to budget amendments and supplemental appropriations primarily for salary increases and for unanticipated expenditures after adoption of the original budget. Actual expenditures were \$9,148,528 less than the amended budget at year-end. This is primarily due to the anticipated construction of the aquatic center not occurring.

Actual revenues were less than the revised budget by \$4,744,964. However, it was anticipated that other financing sources from the issuance of bonds for the construction of the aquatic center would be realized. Excluding this revenue source, actual revenue was \$1,263,496 greater than the revised budget. The factors contributing to the enhanced revenues have been discussed under *Governmental Funds*.

Capital Asset and Debt Administration

Capital Assets

As of year-end, the City had \$132,413,962 invested in a broad range of capital assets, net of depreciation, as reflected in the following schedule:

Capital Assets at Year End (Net of Depreciation)

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
	<u>2003</u>	<u>2003</u>
Land and land rights	\$ 27,826,225	\$ 7,220,585
Buildings and improvements	3,705,600	16,510,696
Machinery and equipment	7,607,912	33,384,088
Work in process	1,085,966	4,442,790
Infrastructure	30,630,100	
Totals	<u>\$ 70,855,803</u>	<u>\$ 61,558,159</u>

This year's major capital asset additions included the following:

- Payments of \$282,997 on computer aided dispatch and records management system (CAD/RMS) and mobile data system in the Police Department.
- Replacement of City vehicles through the Vehicle Replacement Fund totaled \$663,918.
- Construction of the runway extension at the Airport cost \$1,472,651. Project should be completed in fiscal year 2004.
- Design for the College Avenue sewer main replacement project has been completed for \$308,938. The actual upgrade will occur in fiscal year 2004 and should cost approximately \$2.8 million.
- Sewer main rehabilitations throughout the City totaled \$210,522.

The City's fiscal year 2004 capital budget projects spending approximately \$8,500,000 for a three-pool aquatic center. This project will be financed from the proceeds of certificate of participation bonds scheduled to occur in the spring of 2004. The City is also scheduled to purchase two refuse packers for approximately \$372,000 and a sewer flusher truck for approximately \$276,000.

Major capital expenditures in the Water Enterprise Fund include the work on the Water Plant Administration offices for \$1,650,000 and booster station improvements for \$2,390,000. \$2,800,000 is budgeted to be spent on the filter addition at the Water Treatment Plant.

The Wastewater Fund is scheduled to begin design work on the treatment plant upgrade estimated to cost approximately \$7.5 million with an estimated total construction cost of \$50,000,000. This project is required to comply with more stringent permit standards, replace outdated equipment and add needed redundancy to the plant. The project is expected to be financed with a combination of revenue bonds and a loan from the state revolving loan program. For more detailed information on capital assets, see the notes to the financial statements.

Long Term debt

At the end of the current fiscal year, the City had long-term debt outstanding of \$12,400,562. Of the amount, \$3,338,437 represent long-term leases outstanding backed by the equipment purchased. \$7,904,900 represents enterprise fund revenue bonds secured solely by specified revenue sources, \$104,856 represents long-term notes payable, and \$1,052,369 represents long-term loans payable.

Outstanding Debt at Year End

	Governmental Activities	Business-type Activities
	2003	2003
Revenue bonds	\$ -	\$ 7,904,900
Loans payable	1,052,369	
Long Term Capital Leases	1,778,155	1,560,282
Notes Payable		104,856
Totals	\$ 2,830,524	\$ 9,570,038

The City currently has no general obligation debt outstanding. For more detailed information on long term debt, see the notes to the financial statements.

Significant Accomplishments of Fiscal Year 2002-2003

- Created a Parks Maintenance and Assessment District to fund the pool complex and maintain and improve parks and recreation facilities.
- Approved loan of \$250,000 from the City's Community Development program to California Chrysler, Dodge and Jeep to be used for working capital after the facility is constructed.
- Staff proceeded to update the City's developer AB1600 impact fees, which were last updated in 1990.
- Staff updated the City's Quimby Act fees which are used for developing community park and/or recreational purposes.
- Completed construction of Water Well #9 for \$793,617 which will add reliability in accessing the City's water supply.
- The University Park underground electrical rebuild project continued which included the conversion from the 2400 volt capacity to the 12kv capacity. \$580,954 was spent on the project for the year.
- Began design work on the City's \$8.5 million aquatic center.
- Completed construction of the SCADA system at the receiving station to automate control and monitoring of electrical operations.
- Completed design work of the College Avenue sewer main rehabilitation for \$31,528. Estimated construction is \$2,800,000.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the City is 5.1% versus 4.8% in 2002 and 5.1% in 2001. The current year unemployment rate is in line with the State's June, 2003 rate of 6.2%. The City's labor force has increased from 18,140 to 18,900 in June 2003.
- The City's assessed valuation of physical property has risen to \$1,797 million in 2003 from 1,682 million in 2002 (a 6.8% increase), indicating strong demand for property in the City.
- Increased residential construction has resulted in increased building and plan check revenue of \$177,000.
- Sales tax revenue should increase in the future as Home Depot will be adding a store in the City.
- Inflationary trends in the region compared favorably to national indices.

These indicators were taken into account when preparing the City's budget for fiscal year 2004.

During the current fiscal year, unreserved fund balance in the general fund increased by \$1,089,655, an increase of 24% over the prior year. The City's general fund biennial budget is 36,158,931, an increase of 16.0% over the previous 2-year budget. However, nearly two-thirds of this increase can be attributed to one time funding for the Aquatic Center (\$2,750,000) and furniture purchased as a result of the City Hall Space Allocation Study and Plan (\$500,000). Absent these expenditures, the General Fund Budget is up 7% from the previous budget.

Because of the need to provide for normal contingencies during the coming fiscal years, the budget provides for a General Fund Reserve of approximately \$7,595,000. The General Fund Reserve Balance includes \$2,000,000 held in the Economic Uncertainty Fund.

The ongoing state budget crisis could have a dramatic effect on the General Fund in coming years. Potential reductions in major General Fund revenue sources such as sales taxes, property taxes and/or vehicle license fees would severely effect operations normally financed by these funds such as police and fire protection, parks and recreation services and community development. Management is aware of the potential consequences and is prepared to recommend the necessary measures to mitigate the revenue reductions.

In the Electric Fund, the City will be required to continue charging the 1½ cents per kWh Deregulation Cost Adjustment (DCA), which was scheduled to sunset on December 31, 2001. The DCA will need to be kept in place for the next five years to avoid the more costly rate increases being charged by the investor-owned utilities. At the end of five years, the need for the DCA will be reviewed. Currently, no rate increases are expected for the Electric Fund. However, this may change depending on the actions of the legislature.

As mentioned previously, rate increases have been implemented for the Water, Wastewater and Solid Waste Funds. Currently, the Wastewater Fund is not able to meet its bond covenant requirements. Additional rate increases will likely occur to pay the debt service used for the Wastewater Plant upgrade estimated to cost approximately \$50 million.

Requests for information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Rene M. Vise', Utility Accounting Supervisor. He can be reached at 100 Civic Center Plaza, Lompoc, CA 93436.

City of Lompoc
 Reconciliation of the Balance Sheet of Governmental
 Funds to the Statement of Net Assets
 June 30, 2003

Amounts reported for governmental activities in the statement of net assets are different because:

Total fund balances - governmental funds		22,773,512
<p>When capital assets (land, building, equipment) that are to be used are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.</p>		
Cost of capital assets	\$ 96,132,472	
Accumulated depreciation	<u>(30,867,528)</u>	65,264,944
<p>Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.</p>		
		(1,715)
<p>Long-term liabilities applicable to the city's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net assets.</p>		
Long term capital leases payable		(430,200)
Long term loans payable		(1,052,369)
<p>Compensated absences</p>		
		(1,614,948)
<p>Internal service funds are used by management to charge the costs of certain activities such as insurance and telecommunications, to individual funds. The assets and liabilities of all internal service funds are included in governmental activities in the statement of net assets.</p>		
		<u>7,906,041</u>
Net assets of governmental activities	\$	<u><u>92,845,265</u></u>

City of Lompoc

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2003

Net change in fund balance - total governmental funds \$ 2,714,220

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeds capital outlay in the current period. (1,495,318)

In the Governmental Funds, debt issuance was recorded as an Other Source of Revenue, while principal debt repayments was recorded as an expenditure. Additionally, a net in compensated absences was charged to the governmental funds for compensated absences. In the Statement of Activities, these do not require the use of current funds and accordingly are not included.

Principal payments on long term debt	79,842	
Adjustment to capital lease	47,788	
Proceeds from long term loans	(230,000)	
Adjustments to interfund loans	186,963	
Expenditure for compensated absences	72,768	157,361

Accrued interest on capital leases (1,715)

The net revenue of certain activities of internal service funds is reported with governmental activities. (1,263,467)

Change in net assets of governmental activities \$ 111,081

CITY OF LOMPOC
Notes to the Financial Statements
June 30, 2003

The City of Lompoc has adopted accounting procedures and methods that conform to generally accepted accounting principles as applied to governmental entities. The following notes are an integral part of the City's Comprehensive Annual Financial Report.

I. Summary of significant accounting policies

A) Reporting entity

The City of Lompoc was incorporated under the State of California in 1888. It operates under an elected Council/Administrator form of government with a five-member Council, four council members elected for four-year overlapping terms and the mayor elected for a two-year term. The major services the City provides to the community are Public Safety, Fire Protection, Parks and Recreation, Utilities, Solid Waste Collection and Disposal, Municipal Airport Management, Public Transportation and General Administrative Services.

As required by accounting principles, generally accepted in the United States of America, these financial statements present the City of Lompoc (the primary government) and its component unit. The component unit discussed below is included in the City's reporting entity because of the significance of its operational or financial relationship with the City.

Blended Component Unit. The Lompoc Redevelopment Agency (LRA) is a separate legal entity established to plan, rehabilitate and redevelop blighted areas within the City. In accordance with Statement No. 14 of the Governmental Accounting Standards Board, the LRA is reported as if it were part of the primary government because the City Council is also the governing body of the LRA. In addition, the City's General Fund provided substantial loans to the LRA. Payments are made monthly, and the loans are scheduled to be retired in the years ranging from 2009 through 2014. Separate financial statements are prepared by the Lompoc Redevelopment Agency and are available from the Agency upon request by writing Lompoc City Hall, P. O. Box 8001, Lompoc, California 93438-8001. The financial activities of the Agency have been included in the City's financial statement as a special revenue fund and a capital projects fund.

The City currently has no discretely presented component units.

B) Government-wide and fund financial statements

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approve Statement #34 “Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments.” This statement provides for the most significant change in financial reporting in over twenty years and is scheduled for a phased implementation (based on size of government) starting with fiscal years ending 2002 (for larger California local governments with a June 30 fiscal year). As part of this Statement, there is a new reporting requirement regarding the local government’s infrastructure (roads, bridges, traffic signals, sidewalks, etc.). This years government-wide financial statements include the City’s infrastructure as part of capital assets.

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. While the previous model emphasized fund types, (the total of all funds of a particular type), in the new reporting model the focus is on either the City as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. This government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Eliminations have been made in the statement of activities so that certain allocated expenses are recorded only once (by the function to which they were allocated). General government expenses have been allocated as indirect expenses to the various functions of the City.

The fund financial statements are, in substance, very similar to the financial statements presented in the previous model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) or fund type are summarized into a single column.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C) Measurement focus, basis of accounting, and financial statement presentation

The basic financial statements of the City are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Financial reporting is based upon all GASB pronouncements, as well as the FASB Statements and Interpretations, APB Opinions and Accounting Research Bulletins that were passed on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the

government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, special assessments, franchise taxes, licenses, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Internal service funds (see definition under proprietary funds below) of a government are presented in the summary form as part of the proprietary fund financial statements. The primary users of the services of the Central Stores, Insurance, Communications and Vehicle funds are the City's governmental activities. Therefore, financial statements of these internal service funds are consolidated into the governmental column when presented at the government-wide level. To the extent possible, the cost of these services are reflected in the appropriate functional activity (police, fire, community development, etc.)

The City reports the following major funds and governmental fund types whose activities are not self-evident from the title of the fund:

GOVERNMENTAL FUNDS

General Fund - used as the general operating fund of the City to account for all financial resources except those required to be accounted for in another fund.

Street Development Fund - to account for receipts and disbursements of street development funds. Financing is provided by development impact fees which are restricted to street improvement purposes.

Special Revenue Funds - to account for the proceeds of specific revenue sources that are legally restricted to expenditure for designated purposes.

Debt Service Funds - to account for the accumulation of resources and the payment on long term general obligation debt principal and interest, other than debt issued for and serviced primarily by enterprise funds.

Capital Project Funds - for the accounting of the resources to be used for the acquisition and construction of major capital facilities.

The City reports the following major funds and proprietary fund types whose activities are not self-evident from the title of the fund:

PROPRIETARY FUNDS

Water Utility Fund – Established to account for the operation of the City’s water utility, a self-supporting activity which renders a service on a user charge basis to residents and businesses.

Electric Utility Fund - Established to account for the operations of the City’s electric utility, a self-supporting activity which renders service on a user charge basis to residents and businesses.

Wastewater Utility Fund – Established to account for the operations of the City’s wastewater utility, a self-supporting activity which renders service on a user charge basis to residents and businesses.

Solid Waste Fund – Established to account for the operations of the City’s solid waste collection and disposal services, a self-supporting activity which renders service on a user charge basis to residents and businesses.

Enterprise Funds - to account for operations that are financed and operated like private business enterprises, where expenses, including depreciation, to provide goods and services to the general public on a continual basis, are financed or recovered primarily through user charges.

Internal Service Funds – These funds account for fleet management, telecommunication services, for the buying, distribution, and receiving for the City’s warehouse system, and for general liability, worker’s compensation and property insurance coverages provided to other departments on a cost-reimbursement basis.

FIDUCIARY FUNDS

Agency Funds – These funds account for the collection and disbursement of deposits, bail and sales tax held by the City for others, and to account for utility deposits, NSF checks and account receivable refunds held as an agency fund for other funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The Water and Wastewater Funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D) Taxes Receivable

Santa Barbara County assesses, bills and collects property taxes for the cities of the county, including the City of Lompoc. January 1 is the date that property taxes attach as an enforceable lien on property. Taxes are levied on July 1, are due on November 1 and February 1 and become delinquent December 10 and April 10.

E) Interfund Transactions

Interfund transactions reflects either loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the Government-wide columnar presentation.

F) Assets, liabilities, and net assets or equity

1. Cash, investments and cash equivalents

Investments are reported in the accompanying balance sheet at fair value, except for certain certificates of deposit and investment contracts that are reported at cost because they are not transferable and have terms that are not affected by changes in market interest rates.

Changes in fair value that occur during the year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

The City pools cash from all of its various funds for the purpose of cash management. The amount in the pooled cash accounts is available to meet current operating requirements.

For purposes of the statements of cash flows, cash and cash equivalents include restricted and unrestricted cash and restricted and unrestricted short term investments with original maturities of three months or less from the date of acquisition.

2. Inventories

At year end a physical count is made of inventories on hand. These inventories are valued at weighted average cost for all funds. During the year, the consumption method of accounting for inventories is used. Under this method purchases are recorded as increases in inventory and charged to expenditures when used.

3. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 3 percent of outstanding property taxes at December 31, 2002.

4. Restricted assets

Certain proceeds of the enterprise fund's revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The "revenue bond operations and maintenance" account is used to report resources set aside to subsidize potential deficiencies from the enterprise fund operations that could adversely affect debt service payments. The "revenue bond construction" account is used to report those proceeds of revenue bond issuances that are restricted for use in construction. The "revenue bond reserve" account is used to report resources set aside to make up potential future deficiencies in the revenue bond current debt service account.

5. Capital assets

Property, plant and equipment purchased or acquired is carried at historical or estimated historical cost. City policy has set the capitalization threshold for reporting capital assets at \$5,000, except for infrastructure, which is set at \$50,000. Contributed assets are recorded at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives and is recorded beginning in the month following acquisition:

Utility plants and stations	30 Years
Buildings	10-30 Years
Improvements other than buildings	4-40 Years
Equipment, furnishings and vehicles	6-25 Years
Assets under capital lease	Lesser of lease term or useful life
Other infrastructure	10-50 Years

Pursuant to GASB Statement #34, the City of Lompoc has included the City's infrastructure assets as part of capital assets at June 30, 2003. This category is the largest asset class of the government and has historically not been reflected in the financial statements nor a measure of its consumption charged. Infrastructure assets include roads, bridges, underground pipe (other than related utilities), traffic signals, etc.

GASB Statement #34 requires the reporting and depreciation of current year infrastructure expenditures effective with the beginning of the implementation year.

The City of Lompoc owns a museum that displays works of art and historical treasures that are held only for public exhibition and are protected and preserved.

6. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or propriety fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

G) Vacation and sick pay

Vacation pay for full time employees is vested as it accrues. Each employee may accumulate twice their annual leave. Vacation pay is payable upon the retirement or termination of the employee.

Sick leave is not vested and is payable only when the leave is taken. However, management, police and fire employees employed with the City for ten years or longer may be paid for up to one half (1/2) for management, fire, unrepresented, and library, 22.5 days for police, with a maximum of 45 days, of their accrued sick pay over and above 30 days, as additional termination pay.

The City accrues accumulated unpaid vacation and sick leave and associated employee-related costs when earned (or estimated to be earned) by the employee. The non-current portion (the amount estimated to be used in subsequent fiscal years) for Governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations. Proprietary funds accrue compensated absences in the period they are earned as a long term debt.

H) Self-insurance

The City administers self-insurance programs for Liability, Property and Workers Compensation. The employee health insurance is carried and administered by the PERS health system.

The liability and contributions by individual funds are carried in the Insurance Control Fund, an Internal Service Fund. Charges are made to the affected operating funds in sufficient amounts to cover the estimated charges for self-insured claims. Charges to operating funds are recorded as expenditures/expenses of such funds and revenues of the Internal Service Fund. Accrual and payment of claims are recorded in the Internal Service Fund.

Workers' Compensation Insurance is administered by a private contractor. The limit of the City's self-insurance is \$300,000 for each accident. Coverage in excess of this amount is obtained through outside insurance carriers.

Liability Insurance is administered as a co-insurance plan. The City is self insured up to \$100,000, with an insurance company co-insuring claims of \$100,001 to \$15,000,000.

Property Insurance is administered as a co-insurance plan. The City is self insured for fire and property damage for up to \$25,000. An insurance company co-insures claims over \$25,000.

I) Comparative data

Certain comparative total data between the current year and the prior year is generally presented in the fund financial statements to provide an understanding of the changes in the financial position and operations of the funds. However, since this is the first year of implementation of GASB Statement 34, the Statement permits the omission of prior data in the year of implementation. Prior year data will be presented in the fund financial statements next year.

J) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

II. Stewardship, compliance and accountability

A) Budgetary data

Formal budgetary accounting is used as a management control for the funds of the City that have expenditures planned. A two year budget is legally adopted for all funds by the City Council prior to July 1 of odd years. The legal level of budgetary control is defined as the level at which the governing body must approve any over-expenditures of appropriations or transfers of appropriated amounts. The appropriations are legally adopted at the major expenditure classification level (salaries and benefits, supplies and services, and capital outlay) for each department within each fund. Thereafter, the Management Services Director must review all budget transfers. The City Administrator is authorized to approve departmental transfers and inter-fund transfers in excess of \$10,000; the City Council approves any new appropriations of \$1,000 or more. Expenditures may not legally exceed appropriations at the department level. Budget information is prepared on a basis consistent with generally accepted accounting principles, as is actual revenue and expenditures/expenses.

Presented in the financial statements is budget information for two of the Governmental Fund Types (the General and Special Revenue Funds). The presentation represents original appropriations adjusted for amendments and supplemental appropriations made during the year.

The City Council adopted budget information is not presented for the remaining Governmental Fund Types (Debt Service and Capital Projects), Proprietary Fund Types (Enterprise and Internal Service) nor Fiduciary Fund Types (Agency). The Debt Service Funds are in essence controlled by the provisions of the debt agreements and other management controls. No formal Debt Service Fund budgets are adopted by the City. The Capital Project Fund is subject to the bid and contract process. While budgets are prepared for the City's Capital Projects Funds, capital projects generally span more than one year and are effectively controlled at the project level. Proprietary Fund Types are subject to changes in activity, as demand for services increase, that fixed budgets cannot reflect. The City acts in a custodial capacity for others in the Fiduciary Fund Types, therefore control of Agency budgets does not rest with the City.

B) Deficit fund equity

Solid Waste Disposal

The Solid Waste Disposal Fund has a \$676,363 deficit in net assets because of the recalculation of Closure and Post Closure requirements. Solid Waste rates have been increased to offset this deficit.

Recreation Fund

The Recreation Fund has a \$98,365 deficit in net assets because the recreation programs provided to the adults and youth of the city and county did not generate sufficient revenue for the operating activities for this year and prior years. Note the deficit in the prior year was \$125,487.

River Park Campgrounds

The campground has a \$171,644 deficit in net assets because the revenue from new campsites has not yet returned the initial investment needed to renovate and build new campgrounds. Note the deficit in the prior year was \$216,220.

Traffic Offender Fund

The Traffic Offender Fund has a deficit fund balance of \$5,125. This deficit will be eliminated through reimbursements from other funds.

III. Detailed notes on all funds

1) Cash and Investments

The City maintains a cash and investment pool that is available for use by all funds. Each fund's portion of the cash and investment pool is displayed on the combined balance sheet as "Cash and Investments" and "Restricted cash."

Interest earned on pooled cash and investments is allocated monthly to the various funds based on an average monthly cash balance. Interest income from cash and investments with fiscal agents and in the deferred compensation plan is credited directly to the related funds.

Cash and investments at June 30, 2003 consisted of the following:

Pooled cash and investments:	
Cash	\$4,763,328
Less: warrants outstanding	(603,275)
Available cash	<u>4,160,053</u>
Certificates of deposit	2,477,000
State Local Agency Investment Fund	7,803,746
U.S. Government issues	35,149,131
Corporate bonds	<u>1,012,880</u>
Total pooled cash and investments	50,602,810
Funds with fiscal agents:	
Cash and cash equivalents	<u>7,252,012</u>
Total cash and investments	<u><u>\$57,854,822</u></u>

Cash and investments listed above are presented on the accompanying financial statements as follows:

Cash and investments	\$41,023,258
Restricted cash and investments	<u>16,831,564</u>
Total cash and investments	<u>\$57,854,822</u>

Cash:

The City of Lompoc's deposits at year end were entirely covered by federal depository insurance, securities investment protection corporation insurance, or by securities held by the City's custodial bank, acting as the City's agent, in the City of Lompoc's name.

Investments:

The California government code authorizes the City to invest in obligations, certificates of participation or other instruments of the U.S. Government or its agencies, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, banker's acceptance, repurchase agreements and the State Treasurer's Investment Pool. The City is also authorized to invest in mutual funds and medium term corporate bonds.

The City's investments at year end are shown and categorized below. These categories are intended to indicate the level of non-market risk assumed by the City in its investments, and are defined as follows:

Category 1 - Includes investments that are insured or registered or for which the securities are held by the City or its agent in the City's name.

Category 2 - Includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the City's name.

Category 3 - Includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent, but not specifically in the City's name.

Investments in pools managed by other governments are not required to be categorized.

At June 30, 2003, the City maintained no category 3 investments. Based upon these criteria, the City's investments at June 30, 2003 are as follows:

INVESTMENT RISK CATEGORIZATION

	Category 1	Category 2	Not Subject to Categorization	Carrying Amount (Fair Value)
<u>Pooled investments</u>				
State pool (LAIF)			\$7,803,746	\$7,803,746
U.S. Government issues		\$35,149,131		35,149,131
Corporate bonds		1,012,880		1,012,880
	-	36,162,011	7,803,746	43,965,757
<u>With fiscal agent</u>				
Municipal Leasing		1,337,424		1,337,424
NCPA			4,110,700	4,110,700
U.S. Government issues		1,803,888		1,803,888
	-	3,141,312	4,110,700	7,252,012
Total investments	-	39,303,323	11,914,446	51,217,769
Deposits	\$6,637,053			6,637,053
Net cash and investments	\$6,637,053	\$39,303,323	\$11,914,446	\$57,854,822

The Carrying amount of all investments reflected in the above table is at fair value, except for nonparticipating investment contracts which are carried at cost because they are not transferable and they have terms that are not affected by changes in market interest rates. The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are collateralized mortgage

obligations, mortgage-backed securities, other asset-backed securities, loans to certain funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, and corporations.

2) Receivables and payables

Receivables in the General Fund consist primarily of inter-fund loans (46%), and the remainder consists of accounts receivables from the billing of miscellaneous invoices. The remaining receivables in the non-major governmental funds are primarily intergovernmental receivables. Receivables in the major Water, Wastewater, Electric and Solid Waste funds consist primarily of accounts receivable.

Payables in the General Fund and non-major governmental funds are primarily payables to vendors, whereas payments in the Insurance Control Fund are primarily for claims payable. Payables in the Water, Wastewater, Electric and Solid Waste funds are 70 percent payables to vendors and 30 percent payables to contractors for work on capital projects. Payables in the non-major business-type funds are primarily to vendors.

3) Notes receivable

General Fund - A 16 year note receivable dated June 29, 1993, from the Lompoc Redevelopment Agency, for the construction of a parking facility in the downtown area. The principal balance of \$153,128 plus interest of 7% will be repaid from the agency's tax increment payments.

On August 3, 1999, and November 2, 2000, the City entered into two long-term loan agreements with the Lompoc Redevelopment Agency for \$22,700 and \$119,801. Both loans bear interest at 5.5% and will be repaid from the Agency's tax increment. The proceeds from the loans will be used to rehabilitate the City's Senior Center. At June 30, 2003, the principal balances remaining on the loans are \$19,036 and \$98,902.

On December 19, 2000, the City entered into a long-term loan agreement with the Lompoc Redevelopment Agency for \$85,000. The proceeds from this loan will be used to pay expenses incurred to analyze and consider the adoption of a new project area. As of June 30, 2003, the City had advanced \$80,621 to the Agency for this loan. This loan bears interest at 6% and will be repaid within one year after the adoption of a new project area or termination of litigation to defend against any action seeking to invalidate the project area, whichever is later.

Redevelopment Agency - In fiscal year 2001, the Agency received three CHFA-HELP loans amounting to \$711,175 to be used for low - income housing. In fiscal year 2002, the Agency issued an additional \$288,825 to be used for low-income housing. These loans are payable in ten years from the proceeds of loan payments from the low-income recipients. The interest on the loans is 3% per annum. At June 30, 2003, the balance of the loans is \$1,052,369 and the Redevelopment Agency is contingently liable for payment of the loans if the recipients default on their payments.

4) **Inter-fund receivables, payables and transfers**

Inter-fund receivables and payables

The composition of inter-fund balances as of June 30, 2003, is as follows:

	<u>R e c e i v a b l e</u>	<u>P a y a b l e</u>
GENERAL FUND	\$ 373,590	
NONMAJOR GOVERNMENTAL FUNDS	267,814	\$ 22,010
ENTERPRISE FUNDS:		
Water Utility Fund	88,878	
Electric Utility Fund	308,600	
Wastewater Utility Fund	249,183	
Solid Waste Fund		249,183
NONMAJOR ENTERPRISE FUNDS		1,016,872
	<u>\$ 1,288,065</u>	<u>\$ 1,288,065</u>

The balance owed to the General Fund of \$373,590 resulted from loans made to the Revolving Recreation Fund and the River Park Campground Fund to finance campground improvements. The loans are being amortized over the next ten years.

The balance owed of \$249,183 from the Solid Waste Fund to the Wastewater Fund was a loan used by the Solid Waste Fund to purchase land from Cal Trans in 1998 for \$314,280. The loan is being amortized over the next eleven years.

The balance of \$308,600 owed to the Electric Fund consists of loans made to the Airport to purchase land and construct a taxi-way. The loans are being amortized over the next nineteen years.

Interfund Transfers

Interfund transfers consist of operating and equity transfers from funds receiving revenue to funds through which the resources are to be expended.

	<u>Transfers In</u>	<u>Transfers Out</u>
GENERAL FUND	\$ 4,121,993	\$ 165,433
NONMAJOR GOVERNMENTAL FUNDS	98,739	3,056,726
INTERNAL SERVICE FUNDS	220,128	16,452
ENTERPRISE FUNDS		
Electric Utility Fund		1,112,448
Solid Waste		156,495
NONMAJOR ENTERPRISE FUNDS	66,694	
	<u>\$ 4,507,554</u>	<u>\$ 4,507,554</u>

Transfers received in the General Fund are primarily for reimbursement of street maintenance and improvement expenditures from the various street special revenue funds for \$2,471,627, which are routine transfers. The transfer of \$1,112,448 from the Electric Fund to the General Fund is an in-lieu franchise fee.

The remaining transfers are primarily for reimbursement to the General Fund for cash flow purposes and are routine.

5) Capital Assets

Capital Asset activity for the year ended June 30, 2003 was as follows:

Primary Government	Beginning Balance	Adjustments to Beginning Balance	Beginning Balance Restated	Increases	Decreases	Ending Balance
Governmental activities:						
Non-depreciable assets:						
Land	\$ 3,561,801	\$ 24,254,924	\$ 27,816,725	\$ 9,500		\$ 27,826,225
Construction in progress	656,953		656,953	429,013		1,085,966

Depreciation expense was charged to functions as follows:

Governmental activities:

General government	\$	138,975
Police protection		137,462
Fire protection		29,616
Engineering/streets		1,653,239
Building		24,441
Community development		70,940
Parks and recreation		82,824
Depreciation on capital assets held by the City's internal service funds is charged to the various functions based on their usage of the assets		910,784

Total depreciation expense

\$ 3,048,281

Business-type activities:

Water	\$	728,750
Electric		816,117
Wastewater		751,742
Solid Waste		164,059
Airport		60,473
Transit		216,266
Recreation		
River Park Campground		3,140
Health and welfare		62,577

Total depreciation expense

\$ 2,803,125

6) Joint ventures

The City participates in two joint power agencies that are considered joint ventures. These agencies are Northern California Power Agency (NCPA) and Transmission Agency of Northern California (TANC).

NCPA is a nonprofit, joint action agency comprised of 11 cities, one Rural Electric Cooperative, one Public Utility District, one Port Authority and one Irrigation District. The Agency is governed by a Commission comprised of one representative for each member. The Commission is responsible for the general management of the affairs, property and business of the Agency. Separate financial statements of the agency may be obtained by writing NCPA, 180 Cirby Way, Roseville, California 95678.

TANC was organized under the California government code pursuant to a joint powers agreement entered into by 15 northern California utilities, of which the City is a part of under NCPA. Each TANC member has agreed to pay a pro rata share of the cost to operate TANC and has the right to participate in future project agreements. TANC is the project manager for the California-Oregon Transmission Project. The purpose of the project is to upgrade certain facilities and construct new facilities as needed to allow mutually beneficial power sales between the Pacific Northwest and California. Separate financial statements of the agency may be obtained by writing TANC, P.O. Box 661030, Sacramento, California 95866.

While the City is, in part, contingently liable for a certain portion of the long-term debt of each agency, the joint venture’s continued existence does not depend upon the continued funding and/or participation by the City of Lompoc. The City’s participating percentage in each agency is far below that which would be considered a “controlling” or “significant” influence. Therefore, the City’s interests in NCPA and TANC are not equity interests.

	<u>PARTICIPATING PERCENTAGE</u>	<u>INVESTMENT</u>	<u>DATE OF LATEST AUDITED FINANCIAL STATEMENTS</u>
NCPA	3.938%	\$ 721,245	June 30, 2002
TANC	0.408%	6,712	June 30, 2002
Total		<u><u>\$ 727,957</u></u>	

Condensed combined audited financial information of these joint power agencies is as follows (in thousands):

	<u>NCPA</u>	<u>TANC</u>	<u>Total</u>
ASSETS:			
Current assets	\$ 67,981	\$ 8,272	\$ 76,253
Property, equipment and capital project costs	531,125	357,855	888,980
Restricted assets and other assets	554,343	112,449	666,792
TOTAL ASSETS	<u>\$ 1,153,449</u>	<u>\$ 478,576</u>	<u>\$ 1,632,025</u>
LIABILITIES AND CAPITALIZATION:			
Current liabilities	\$ 34,072	\$ 101,126	\$ 135,198
Member advances	1,918		1,918
Long-term debt and other liabilities	1,099,144	375,805	1,474,949
Members' capital	18,315	1,645	19,960
TOTAL LIABILITIES AND CAPITALIZATION	<u>\$ 1,153,449</u>	<u>\$ 478,576</u>	<u>\$ 1,632,025</u>
REVENUE:			
Interest	\$ 8,883	\$ 13,216	\$ 22,099
Operating revenues and other revenues	305,541	44,031	349,572
TOTAL REVENUE	<u>314,424</u>	<u>57,247</u>	<u>371,671</u>

COSTS AND EXPENSES:

General and other operating costs	220,720	20,991	241,711
Interest and other financing costs	81,342	36,544	117,886
TOTAL COSTS AND EXPENSES	302,062	57,535	359,597
Reserve additions and refunds	3,536		3,536
NET INCOME (LOSS)	8,826	(288)	8,538
ACCUMULATED NET REVENUES			
Beginning of year	9,489	1,933	11,422
Additional contributions			-
Change in unrealized holding losses			-
End of year	<u>\$ 18,315</u>	<u>\$ 1,645</u>	<u>\$ 19,960</u>

Under the terms of the NCPA and TANC joint power agency agreements, the City is contingently liable, directly or indirectly, for a portion of the long-term debt of these agencies under a take-or-pay or guarantee arrangement. The City was contingently liable at June 30, 2003 for approximately \$72,887,139 (TANC principal \$1,512,556, TANC interest \$1,221,791; NCPA principal \$38,964,541, NCPA interest \$31,188,251). Under certain circumstances, such as default or bankruptcy of the other participants, the City may also be liable to pay a portion of the debt of these agencies on behalf of the other participants in these agencies.

Northern California Power Agency

The NCPA's Geothermal Project has experienced greater than anticipated declines in steam production from existing geothermal wells on its leasehold property. Recent results of the continuing well analysis program indicate that the potential productive capacity of the geothermal steam reservoir is less than previously estimated. Therefore, NCPA has modified the operations of the Geothermal Project to reduce the average annual output from past levels. As a result the per-unit cost of power generated by the projects will be higher than anticipated.

7) Leases under governmental activities

During the fiscal years ended June 30, 1996, 1997, 2000, and 2002, the City entered into long-term leases as lessee for financing the purchase of \$2,765,000 of certain equipment utilized in the General Fund, Capital Development Fund, Communications Fund, and Vehicle Fund. The lease agreements allow the City, upon 30 days written notice, to terminate the leases as of the end of that fiscal year based solely on the City's failure to appropriate funds for the subsequent years' rental payments after exercising reasonable efforts to appropriate funds from any and all of its legally available sources. These leases qualified as capital leases for accounting purposes and therefore, were recorded at the present value of the future minimum lease payments at the date of inception of the leases.

Future minimum lease payments under these capital leases are as follows:

FISCAL YEAR ENDED <u>JUNE 30</u>	<u>CAPITAL LEASES</u>
2004	\$ 402,281
2005	369,844
2006	306,307
2007	256,177
2008	191,119
2009-2013	<u>541,166</u>
Total minimum lease payments	2,066,894
Amount representing interest	<u>(288,739)</u>
Present value of minimum lease payments	<u><u>\$1,778,155</u></u>

Debt service for the present value of minimum lease payments will be provided by the General Fund, Vehicle Fund, and Communications Fund.

8) Leases under business-type activities

During the fiscal years ended June 30, 1996, 1997, 1999, and 2002 the City entered into long-term leases as lessee for financing purchases of \$2,780,979 of certain equipment utilized in the Solid Waste, Water, and Electric Funds. These lease agreements allow the City, upon 30 days written notice, to terminate the leases as of the end of that fiscal year based solely on the City's failure to appropriate funds for the subsequent years' rental payments after exercising reasonable efforts to appropriate funds from any and all of its legally available sources. These leases qualified as capital leases for accounting purposes and therefore, were recorded at the present value of the future minimum lease payments at the date of inception of the leases.

Future minimum lease payments under these capital leases are as follows:

<u>FISCAL YEAR</u> <u>ENDED</u> <u>JUNE 30</u>	<u>CAPITAL</u> <u>LEASES</u>
2004	\$ 343,487
2005	332,187
2006	278,402
2007	220,347
2008	167,117
2009-2013	<u>473,177</u>
Total minimum lease payments	1,814,716
Amount representing interest	<u>(254,433)</u>
Present value of minimum lease payments	<u>\$ 1,560,283</u>

Debt service for the present value of minimum lease payments will be provided by the Solid Waste Fund, Water Fund, and Electric Fund.

9) Long-term liability activity for the year ended June 30, 2003 was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Amount Due within One Year</u>
Governmental Activities					
Compensated absences	\$ 1,687,716	\$ 1,566,349	\$ (1,639,117)	\$ 1,614,948	\$ 1,534,200

	<u>8,807,214</u>	<u>-</u>	<u>(277,358)</u>	<u>8,529,856</u>	<u>255,220</u>
Less: deferred amount on refundings	<u>(547,474)</u>	<u>-</u>	<u>27,374</u>	<u>(520,100)</u>	
Total bonds and notes payable	8,259,740	-	(249,984)	8,009,756	255,220
Compensated absences	693,902	883,053	(876,524)	700,431	665,410
Accrued payroll and benefits	304,235	21,603	(96,312)	229,526	21,603
Capital leases-Solid Waste	766,692		(162,332)	604,360	171,687
Capital leases-Water	796,123		(76,160)	719,963	79,484
Capital leases-Electric	213,128	47,787	(24,956)	235,959	26,045
Business-type activities Long-term liabilities	<u>\$ 11,033,820</u>	<u>\$ 952,443</u>	<u>\$ (1,486,268)</u>	<u>\$ 10,499,995</u>	<u>\$ 1,219,448</u>

Long-term debt other than capital leases at June 30, 2003 was comprised of the following individual issues:

Revenue bonds

1994 Sewer Revenue Refunding Parity Bond

Principal amount sold \$470,321

Interest rate of 6.0% payable March 1 and September 1; maturities payable on September 1 in annual redemptions from \$88,367 to \$94,408; final payment was made on September 1, 1999

1998 Water and Wastewater Revenue Bonds:

On July 7, 1998, Revenue Bonds in the amount of \$9,535,000 were sold. \$4,470,000 of this bond issue was to be used to finance three new Water Capital projects and the remaining amount of \$5,065,000 was used to advance refund the 1992 Water and Wastewater Revenue Bonds. The advance refunding resulted in a difference of \$656,970 between the reacquisition price and the net carrying amount of the old debt (\$502,435 in Water and \$154,535 in Wastewater). This difference is reported in the accompanying financial statements as a deduction from bonds payable and is being charged to operations as additional interest expense through the year 2022 using the straight line method. The City completed the advance refunding to reduce its total debt service payments over the next 23 years by \$822,774 and to obtain an economic gain (difference between the present value of the old debt and the new debt service payments) of \$497,677. At June 30, 2003, the defeased debt from the 1992 Water and Wastewater Revenue was no longer outstanding.

Interest rate from 3.5% to 5.0% payable March 1 and September 1; maturities payable on March 1 in annual redemption from \$210,000 to \$545,000; final payment is due March 1, 2028.

Original issue \$9,535,000

Deferred amount of refunding

(520,100)	
	<u>7,904,900</u>
	<u>\$ 7,904,900</u>

Loan payable (Water Utility Fund)

U.S. Department of Commerce, Economic Development Administration, Wet Well Loan, Contract Number 078100237-01; a 1978 simple interest loan of 5% payable June 30; annual payment of \$7,290; final payment is due June 30, 2017. Proceeds were used toward the construction of a wet well.
Original issue \$124,000

\$ 69,236

Loan payable (Airport Fund)

State of California, Department of Transportation Aeronautics Program, Loan No. SB-12-96-L-1, Aircraft Fuel Facility Loan; a 1997 simple interest loan at 5.5094% payable yearly; principal portion of the loan increases each year to reflect the anticipated increase in fuel sales; final payment is due July 21, 2005. The proceeds were used to construct a 10,000 gallon self-fueling aircraft fueling system.

\$ 35,620

The annual requirements in the Enterprise Funds to amortize Revenue Bonds and Loans Payable outstanding as of June 30, 2003 are as follows:

YEAR ENDING JUNE 30	REVENUE BONDS		
	PRINCIPAL	INTEREST	TOTAL
2004	240,000	402,034	642,034

	<u>\$ 104,856</u>	<u>\$ 30,970</u>	<u>\$ 135,826</u>

10) Notes payable

The Lompoc Redevelopment Agency issued notes payable as follows:

	<u>Loan Amount</u>	<u>Principal Due at June 30, 2003</u>
City of Lompoc (General Fund)	233,000	\$153,128
	119,801	98,902
	72,769	80,621
	22,700	19,036
	<u>205,333</u>	<u>205,333</u>
	<u>\$653,603</u>	<u>\$557,020</u>
 CHFA	 <u>\$1,052,369</u>	

CHFA loans are used to assist residents with low-income housing needs. The funds were received from the State of California through their Development Block Grant programs. These loans are payable in ten years from the proceeds of loan payments from the low-income recipients. The interest on the loans is 3% per annum. At June 30, 2003, the balance of the loans is \$1,052,369 and the Redevelopment Agency is contingently liable for payments of the loans if the recipients default on their payments.

11) Bond requirements

At June 30, 2003, the City was not in compliance with the Wastewater Revenue Bond covenant which stipulates that net revenues are at least 125% of the total installment payments each fiscal year. Net revenues are gross revenues less direct operating expenses. The current ratio is negative (220%). Management has raised Wastewater collection rates for each of the next two years and believes that these rate increases will eliminate the shortfall in net revenues and bring the City in compliance with this rate covenant.

12) **Deferred compensation plan**

The City offers its employees the opportunity to participate in a deferred compensation plan with ICMA Retirement Corporation. The plan has been established to meet the Internal Revenue Code Section 457. Employees may withdraw their contributions only at retirement, termination of employment, death or unforeseeable emergency.

13) **Defined benefit pension plan**

Public Employees Retirement System

Plan Description: The City contributes to the California Public Employees' Retirement System (PERS), an agent multiple-employer public employee defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and City ordinance. Copies of PERS' annual financial report may be obtained from their Executive Office – 400 P Street – Sacramento, CA 95814.

Funding Policy: PERS is a contributory plan deriving funds from employees' contributions as well as from employer contributions and earnings from investments. Employer contribution rates for the year ended June 30, 2003 were 0.0% for non-safety members and 9.997% for safety members. Non-safety members contribute 7% and safety members contribute 9% of their annual covered salary. The City makes the contributions required of non-safety employees on their behalf and pays a portion of the contributions of safety employees for their behalf and for their accounts. The contribution requirements of the City and plan members are established and may be amended by PERS.

Annual Pension Cost: For fiscal year 2002/03, the City's annual pension cost of \$1,376,723 for PERS was equal to the City's required and actual contributions. The required contribution was determined as part of the June 30, 2001 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 8.25% investment rate of return (net of administrative expenses); (b) projected annual salary increases that vary by duration of service; and (c) 3.75% annual payroll growth. Both (a) and (b) include an inflation component of 3.5%. The actuarial value of PERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a four-year period (smoothed

market value). PERS unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2002, was 14 years for safety and 22 years for miscellaneous. June 30, 2002 is the latest actuarial valuation.

All full-time and certain part-time City employees are eligible to participate in PERS. Benefits vest after five years of service and the City maintains separate retirement programs for Safety employees (Police and Fire) and Miscellaneous employees. Safety employees with five years of credited service are entitled to an annual retirement benefit, payable monthly for life, and may retire at age 50 with a retirement benefit equal to 3% of their salary. The final compensation is the monthly average of the member's highest 36 consecutive month's full-time equivalent pay. The service retirement benefits are capped at 90% of final compensation. The Miscellaneous employee's retirement program provides an annual retirement benefit payable monthly for life, after five years based on their single highest year of employment for each year of credited service. The service retirement benefit is not capped. PERS also provides death and disability benefits. These benefit provisions are established by State statute and City ordinance.

THREE-YEAR TREND INFORMATION FOR PERS

Miscellaneous Employees:

Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6/30/2000	806,154	100.00%	0
6/30/2001	844,381	100.00%	0

Post-employment Benefits

In addition to the pension benefits described in Note 13, the City provides postemployment health care insurance, in accordance with Memorandums of Understanding, to all employees who retire from the City on or after attaining age 55 with at least 15 years of service. Currently, twenty-seven retirees meet those eligibility requirements. The City's contributions are financed on a pay-as-you-go basis. The City pays a percentage of the cost incurred by pre-Medicare retirees, toward health and dental insurance, beginning with 50% with 15 years of service and increasing 2.5% with each year, to a maximum of 75% with 25 years of service. The City also reimburses a fixed amount of up to \$100 per month for a Medicare supplement for the twenty-four retirees eligible for Medicare. Expenditures for postemployment health care benefits are recognized as monthly premiums when paid. During the year, expenditures of \$122,681 were recognized for postemployment health care.

14) Fund balance reserves and designations

Following is a list of fund balance reserves and designations used by the City of Lompoc at June 30, 2003:

RESERVE FOR INVENTORY - GENERAL FUND:

Used to segregate a portion of fund balance to indicate that inventory does not represent available, spendable resources even though it is a component of assets -

\$ 31,156

RESERVE FOR INTERFUND LOANS - GENERAL FUND:

Used to indicate that the loans due from other funds do not represent available, spendable resources even though they are a component of assets -

930,610

RESERVE FOR LOW INCOME HOUSING - SPECIAL REVENUE FUNDS, LOMPOC REDEVELOPMENT AGENCY:

Used to indicate the reserving of funds for low income housing -

353,815

**RESERVE FOR LAND DEVELOPMENT - SPECIAL REVENUE FUNDS,
CAPITAL DEVELOPMENT:**

Used to segregate a portion of fund balance for land development
legally restricted to the development of city parks - 117,482

**RESERVE FOR ECONOMIC UNCERTAINTIES - SPECIAL REVENUE FUNDS,
ECONOMIC UNCERTAINTIES FUND:**

Used to maintain emergency reserves for unforeseen economic conditions- 2,000,000

RESERVE FOR DEBT REDEMPTION – SPECIAL REVENUE FUNDS:

Used to indicate reserves established to pay long-term debt. 1,609,389

RESERVE FOR INVENTORY – SPECIAL GAS TAX FUND:

Used to segregate a portion of fund balance to indicate that
inventory does not represent available, spendable resources
even though it is a component of assets - 4,025

15) Risk management

The City is partially self-insured for workers' compensation, liability claims, property losses and fully self-insured for unemployment claims. The City has been partially self-insured for workers' compensation since 1976.

The Self-Insured Retention (SIR) for property insurance is \$25,000. Insurable property is generally covered for all risks, excluding earthquake and flood, by a policy with an aggregate limit of \$68,242,344. Various unique risks, such as boilers, machinery and data processing equipment are also insured.

On November 24, 1987 the City joined the Central Coast Cities Self-Insurance Fund (CCCSIF) for the purpose of purchasing excess liability insurance only. The City does not participate in the Workers' Compensation Insurance Program. The CCCSIF was formed under the Joint Powers Agreement (JPA) provision of state law (Government Codes 990, 990.4, 990.8 and 6500-6515). In addition, CCCSIF is governed by bylaws adopted by the JPA members. The fund is directed by a board of directors comprised of a representative appointed by the city council of each member agency. The allocation of the liability insurance policy cost are calculated based on the recommendations of insurance brokers/consultants using recognized insurance experience rating techniques. Separate financial statements of CCCSIF may be obtained by writing the City Administrator, City of San Luis Obispo, P.O. Box 8100, San Luis Obispo, California 83403-8100, or by phoning (805) 549-7101.

Condensed financial information for CCCSIF for the year ended June 30, 2002, the latest information available, is as follows:

	Workers' Compensation Insurance Program	Public Liability Insurance Program
Current assets	16,033,300	2,664,000
Total assets	<u>\$ 16,033,300</u>	<u>\$ 2,664,000</u>
Current liabilities	526,500	47,100
Long-term debt and other liabilities	15,506,800	2,616,900
Total liabilities	<u>\$ 16,033,300</u>	<u>\$ 2,664,000</u>
Interest	642,700	143,900
Operating revenue and other revenue	3,637,900	1,873,600
Total revenue	<u>4,280,600</u>	<u>2,017,500</u>
General and other operating costs	4,280,600	2,017,500
Total costs and expenses	<u>4,280,600</u>	<u>2,017,500</u>
Net income (loss)	-	-
Accumulated net revenues, beginning of year	-	-
Accumulated net revenues, end of year	<u>\$ -</u>	<u>\$ -</u>

The City is self-insured for the first \$100,000 per occurrence, and excess insurance through CCCSIF provides coverage to a maximum of \$15,000,000 per occurrence. The City's self insured retention (SIR) for workers' compensation is \$300,000. There were no significant reductions in insurance coverage from coverage in the prior year. For fiscal years ended June 30, 1994 through 2003, no claims settlements have exceeded insurance coverage.

The City's self-insurance fund is financed through contributions made by the City's general and enterprise funds. Third party administration provides data on estimated claim liabilities (paid and reserves). As of June 30, 2003 the estimated outstanding liability was \$3,995,564 for workers' compensation and \$449,326 for general liability. The Insurance Control Fund has total net assets of \$431,452 all of which are available for the known outstanding liabilities and for future catastrophic losses. Estimated

liabilities for incurred but not reported (IBNR) claims are \$6,986 at June 30, 2003. Such amounts have been accrued in the accompanying combined financial statements in the self-insurance internal service fund.

Changes in balances of claims liabilities for general liability insurance are as follows:

	General Liability	Workers Comp.
Unpaid claims liability, June 30, 2001	\$ 96,583	\$ 1,192,448
Incurred claims (including IBNR)	75,093	1,754,477
Claim payments	<u>(20,709)</u>	<u>(706,378)</u>
Unpaid claims liability, June 30, 2002	150,967	2,240,547
Incurred claims (including IBNR)	359,501	2,302,832
Claim payments	<u>(61,142)</u>	<u>(547,815)</u>
Unpaid claims liability, June 30, 2003	<u><u>\$ 449,326</u></u>	<u><u>\$ 3,995,564</u></u>

16) **Prior period adjustments**

Certain adjustments have been made to July 1, 2002 fund balances and net assets as follows:

	Increase (Decrease) in Fund Balances <u>and Net Assets</u>
GENERAL FUND	
Correction of allocation of lease proceeds from prior year	(34,018)
SPECIAL REVENUE FUNDS	
Traffic Congestion Relief Fund	
Correction of posting of revenue from prior year	9,115
ENTERPRISE FUNDS	
Wastewater Fund	
Adjustment from prior year error in posting of lease proceeds	(1,139)
Electric Fund	
Adjustment from prior year error in posting of lease proceeds	(1,232)
Wastewater Fund	
Adjustment from prior year error in posting of depreciation expense	(906,854)
Solid Waster Fund	
Adjustment from prior year error in posting of lease proceeds	1,623
INTERNAL SERVICE FUNDS	
Vehicle Fund	
Adjustment from prior year error in posting of lease proceeds	(220)

17) Segment information for enterprise funds

Summary financial information, as of and for the fiscal year ended June 30, 2003 for the City's non-major enterprise funds is as follows:

Condensed Statement of Net Assets

	<u>Lompoc Airport</u>	<u>Lompoc Transit</u>	<u>Recreation</u>	<u>River Park Campgrounds</u>	<u>Lompoc Valley Community Center</u>	<u>Total</u>

Net increase (decrease)	(27,664)	2,143	12,271	223	22,740	9,712
Beginning cash and cash equivalents	34,443	13,447	6,709	14,896	36,343	105,838
Ending cash and cash equivalents	<u>\$6,779</u>	<u>\$15,590</u>	<u>\$18,980</u>	<u>\$15,119</u>	<u>\$59,083</u>	<u>\$115,550</u>

18) **Excess of expenditures over appropriations**

Excess of expenditures over appropriations in individual major funds are as follows:

<u>Fund/Department</u>	<u>Excess</u>
General Fund:	
Police Protection	\$211,456
Community Development	269,040
Street Development:	
Engineering/Streets	6,525

The over expenditures in the Police Department were due to greater than forecast overtime charges.

The over expenditures in the Community Development were due to greater than forecast charges for planning projects.

The over expenditures in the Street Development Fund were due to greater than forecast charges on street projects.

19) Restatement of beginning fund balances/net assets

The City's beginning fund balances/net assets have been restated to reflect the cumulative effect of the implementation of GASB 34. The following table provides a reconciliation of fund balances at June 30, 2002, as previously reported, to fund net assets at June 30, 2002, as restated:

	<u>Governmental Funds</u>
Fund balances/net assets as of June 30, 2002, as previously reported	\$20,641,215
Recognition of internal long-term loans from the Redevelopment Agency to the General Fund	(557,020)
Fund balances/net assets as of June 30, 2002, as restated	<u>20,084,195</u>
Reconciliation of fund balances/net assets at June 30, 2002, as restated to net assets at June 30, 2002, as restated:	
Capital assets, net of depreciation	66,760,262
Outstanding long-term leases payable	(544,793)
Compensated absences payable	(1,687,716)
Long-term loans payable	(1,022,369)
Reclassifications of net assets of internal service fund to governmental activities	9,169,508
Net assets at June 30, 2002, as restated	<u><u>\$92,759,087</u></u>

20) Closure and postclosure care cost

State and federal laws and regulations require the City to place a final cover on its sanitary landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$3.82 million reported as landfill closure and postclosure care liability at June 30, 2003 represents the cumulative amount to date based on the use of 54.2 percent of the estimated capacity of the landfill. The City will recognize the remaining estimated cost of closure and postclosure care of \$3.23 million as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2003. The City expects to close the landfill in the year 2047. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The City is required by state and federal laws and regulations to make annual contributions to a reserve account to finance closure and postclosure care. The City is in compliance with these requirements, and, at June 30, 2003, restricted cash in the amount of \$2,242,987 is held for these purposes. The City expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws or regulations, for example), these costs may need to be covered by charges to future landfill users.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and City Council
City of Lompoc
Lompoc, California

I have audited the financial statements of the City of Lompoc, as of and for the year ended June 30, 2003, and have issued my report thereon dated October 29, 2003. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City of Lompoc's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants,

noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the City of Lompoc's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial

reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended solely for the information and use of management, others within the organization, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and City Council
City of Lompoc
Lompoc, California

Compliance

I have audited the compliance of the City of Lompoc, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003. The City of Lompoc's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Lompoc's management. My responsibility is to express an opinion on the City of Lompoc's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government auditing standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of

Lompoc's compliance with those requirements and performing such other procedures, as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of the City of Lompoc's compliance with those requirements.

In my opinion, the City of Lompoc complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the City of Lompoc is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the City of Lompoc's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

My consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that

would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over compliance and its operation that I consider to be material weaknesses.

This report is intended solely for the information and use of management, others within the organization, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

October 29, 2003

Section I – Summary of Auditor’s Results

Financial Statements

Type of auditor’s report issued:

Unqualified

Internal Control over financial reporting:

Material weakness(es) identified?

___ Yes X No

Reporting condition(s) identified not considered
to be material weaknesses?

___ Yes X None

Noncompliance material to financial statements noted?

___ Yes X No

Federal Awards

Internal control over major programs:

Material weakness(es) identified?

___ Yes X No

Reporting condition(s) identified not considered
to be material weaknesses?

___ Yes X None

Type of auditor’s report issued on compliance for major programs:

Unqualified

Any audit findings disclosed that are required to be reported
in accordance with Circular A-133, Section .510(a)

___ Yes X No

Note: Valuations are established by the County Assessor of the County of Santa Barbara, except for property owned by private utility companies, which is valued by the State of California. Under the provisions of Article XIII A of the State Constitution (Proposition 13 adopted by the voters on June 6, 1978) properties are assessed at 100% of full value and subsequently increase at a maximum rate of 2% per year. The County collects property taxes and distributes the appropriate amount to each city. Each \$1.00 of property tax is distributed to various local government agencies based upon fixed allocation factors.
