

Lompoc City Electric Rebate for LED Light Bulb Application

IMPORTANT: In order to receive a rebate of up to \$10 for the purchase of LED (Light Emitting Diode) light bulbs for the replacement of incandescent light bulbs (compact fluorescent bulbs do not qualify),

you must read and complete this application and return it to the address below. Include with the application the following:

1. Receipt or a copy of your receipt
2. Original packaging of each new bulb
3. Old incandescent bulbs that you are replacing with LED bulbs

****New LED bulbs must be Energy Star Rated

A rebate will be issued as a credit on your utility bill.

Please provide the following information:

Name _____

Address _____

Daytime Telephone # _____ Account Number _____

To be eligible for a rebate, I understand that (a) I must be an electric customer with an active electric meter serviced by the City of Lompoc and (b) I understand I must complete this Application form and provide the information requested.

In consideration of my request that the City of Lompoc provide me with a rebate for the purchase of LED lamp/s, I agree to install and operate the energy efficient lamp/s at the address listed on this rebate Application form for a period of time no less than one year after date of this application.

I understand that the amount of rebate shall not exceed \$10 or one-half (1/2) the purchase price of the bulbs and that I am limited to no more than ten (10) bulbs per year.

I understand that if I have closed my account at the address listed above and no longer have an open account with the City before such a time that the rebate can be processed, I will forfeit any rebate due to me.

I understand that this completed and signed Application is the sole form necessary to receive a rebate for the purchase of LED lights and this application must be returned to Lompoc City Electric along with the receipt or copy of the receipt and old bulbs that I am replacing with the LED bulbs. I also understand that the new LED bulbs must have a wattage equivalent to the replaced bulbs.

I testify that I meet all requirements listed above and I understand the conditions listed above. I verify the information I have provided is true and correct.
