

**CITY OF LOMPOC  
ENVIRONMENTAL CHECKLIST FORM**

**A. PROJECT INFORMATION:**

<b>Project Title:</b> Text Amendment	<b>Project No:</b> TA 10-02
<b>Lead Agency Name and Address:</b> City of Lompoc 100 Civic Center Plaza, Lompoc, CA 93436 P.O. Box 8001, Lompoc, CA 93438-8001	<b>Contact Person and Phone Number:</b> Lucille T. Breese, AICP Planning Manager (805) 875-8273
<b>PROJECT DESCRIPTION / LOCATION:</b> Consideration of a Text Amendment to the City's Zoning Ordinance to amend Chapter 17.148 – Application of Environmental Guidelines to Zoning Matters and a recommendation to the Council for adoption of amended Environmental Review Guidelines. The proposed Text Amendment will amend the Zoning Ordinance environmental guidelines to be consistent with requirements of the California Environmental Quality Act (CEQA). If adopted, the Ordinance will be effective Citywide. A Negative Declaration has been prepared for this project in accordance with the California Environmental Quality Act (CEQA).	
<b>Public Agencies with Approval Authority (Including permits, funding, or participation agreements):</b> None	
<b>Project Applicant, Name and Address:</b> City of Lompoc 100 Civic Center Drive Lompoc CA 93436	<b>Project Consultant:</b> N/A
<b>General Plan Designations:</b> Citywide	<b>City Zoning Designations:</b> Citywide
<b>Surrounding Land Use Designations:</b> North – N/A South – N/A East – N/A West – N/A  <b>Surrounding Land Uses/Zoning:</b> North – N/A South – N/A East – N/A West – N/A	
<b>Environmental Setting:</b> Existing urbanized area.	

<b>ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:</b>		
The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact", as indicated by the checklist on the following pages.		
<input type="checkbox"/> Aesthetics	<input type="checkbox"/> Agriculture Resources	<input type="checkbox"/> Air Quality
<input type="checkbox"/> Biological Resources	<input type="checkbox"/> Cultural Resources	<input type="checkbox"/> Geology / Soils
<input type="checkbox"/> Hazards & Hazardous Materials	<input type="checkbox"/> Hydrology / Water Quality	<input type="checkbox"/> Land Use / Planning
<input type="checkbox"/> Mineral Resources	<input type="checkbox"/> Noise	<input type="checkbox"/> Population / Housing
<input type="checkbox"/> Public Services	<input type="checkbox"/> Recreation	<input type="checkbox"/> Transportation / Traffic
<input type="checkbox"/> Utilities / Service Systems	<input type="checkbox"/> Mandatory Findings of Significance	

**B. ENVIRONMENTAL IMPACTS:**

Identify the potential for significant adverse impacts below. Note mitigation measures, if available, for significant adverse impacts.

<b>I. AESTHETICS</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
a) Have a substantial adverse effect on a scenic vista?				X
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?				X
c) Substantially degrade the existing visual character or quality of the site and its surroundings?				X
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?				X

Comments:

- a) There is no development proposed and therefore, no substantial adverse impact on a scenic vista. All future development consistent with the proposed Text Amendment will be subject to the City's *Architectural Review Guidelines*.
- b) The Text Amendment will not substantially damage scenic resources as no development is proposed.
- c) Planning Commission review of future projects will assure compliance with established City *Architectural Review Guidelines*.
- d) The City will review future development proposals on a project specific basis and condition all projects to assure that no substantial light and/or glare will adversely affect day or nighttime views in the area.

II. AGRICULTURAL RESOURCES Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				X
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?				X
c) Involve other changes in the existing environment, which due to their location or nature, could result in conversion of Farmland to non-agricultural use?				X

Comments:

a-c) The proposed Text Amendment applies to an existing urbanized area, and will have no impact on agricultural lands and resources. Any potential impacts caused by future development will be individually considered.

III. AIR QUALITY Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Conflict with or obstruct implementation of the applicable air quality plan?				X
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?				X
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?				X
d) Expose sensitive receptors to substantial pollutant concentrations?				X
e) Create objectionable odors affecting a substantial number of people?				X

Comments:

a-e) The proposed Text Amendment will not obstruct the implementation of any applicable air quality plan; violate any air quality standard; result in a cumulatively net increase in any criteria pollutant for which the City is in non-attainment; expose sensitive receptors to substantial pollutant concentrations or create objectionable odors affecting a substantial number of people. There is no new development proposed at this time and any future development plan will be reviewed to assure conformance with Air Quality standards.

IV. BIOLOGICAL RESOURCES  Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				X
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				X
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?				X
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?				X

Comments:

a-f) The proposed Text Amendment will not have a substantial adverse effect on any species identified as a sensitive species in local or regional plans or by the California Department of Fish and Game or U.S. Fish and Wildlife Service, nor will it affect federally protected wetlands, nor will it affect migratory wildlife corridors, nor will it affect biological resources, nor will it conflict with local policies or ordinances protecting biological resources, nor will it conflict with an approved local, regional or state habitat conservation plan because the site is in an urbanized area and no development is proposed. Future development will be evaluated on a case-by-case basis for potential impact.

<b>V. CULTURAL RESOURCES</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?				X
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?				X
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?				X
d) Disturb any human remains, including those interred outside of formal cemeteries?				X

Comments:

a-d) The proposed Text Amendment **will not change existing land uses** and therefore cause no substantial adverse change in the significance of a historical resource or archaeological resource as identified in the City of Lompoc Cultural Resource Study and "Archeological Sensitivity Zones" Map located in the City of Lompoc General Plan adopted October 1997. Future development will be evaluated on a case-by-case basis for potential impact.

<b>VI. GEOLOGY AND SOILS</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area, or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.				X
ii) Strong seismic ground shaking?				X
iii) Seismic-related ground failure, including liquefaction?				X
iv) Landslides?				X
b) Result in substantial soil erosion or the loss of topsoil?				X
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?				X

<b>VI. GEOLOGY AND SOILS</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?				X
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?				X

Comments:

a-e) The proposed Text Amendment applies to an existing urbanized area, and will not expose people or structures to potential substantial adverse effects. Any potential impacts caused by future development will be individually considered.

<b>VII. HAZARDS AND HAZARDOUS MATERIALS</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?				X
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?				X
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				X
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				X
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?				X
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?				X
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?				X

VII. HAZARDS AND HAZARDOUS MATERIALS	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:  h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?				X

Comments:

- a-c) There is no development proposed by the Text Amendment and therefore, no creation of significant hazard to the public or the environment.
- d-f) No development is proposed. Future development will be evaluated on a case-by-case basis for potential impact.
- g) The proposed Text Amendment will not impair implementation of, or physically interfere with an adopted emergency response plan or emergency evacuation plan.
- h) The proposed Text Amendment will not expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands, because the properties are located in the urbanized area of the City of Lompoc.

VIII. HYDROLOGY AND WATER QUALITY	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:  a) Violate any water quality standards or waste discharge requirements?				X
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?				X
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?				X
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site.				X
e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?				X
f) Otherwise substantially degrade water quality?				X

VIII. HYDROLOGY AND WATER QUALITY Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				X
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?				X
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?				X
j) Inundation by seiche, tsunami, or mudflow?				X

Comments:

a-e) The Text Amendment will not violate any water quality standards or waste discharge requirements; the project will not substantially deplete groundwater supplies or interfere with groundwater recharge; the project will not substantially alter the existing drainage pattern of the site or area; the project will not create or contribute run-off water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted run-off.

f) The proposed Text Amendment will not violate any water quality standards or waste discharge requirements, nor place a greater demand on water supply or quality than the existing land use designation.

g) No development is proposed. Future development will be evaluated on a case-by-case basis for potential impact.

h) The proposed Text Amendment will not expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam.

i-j) The proposed Text Amendment will not create a threat of inundation by seiche, tsunami, or mudflow. Future development will be evaluated on a case-by-case basis for potential impact.

IX. LAND USE AND PLANNING Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
a) Physically divide an established community?				X
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?				X
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?				X

Comments:

- a) The proposed Text Amendment applies to an existing urbanized area and no development is proposed. Future development will be evaluated on a case-by-case basis for potential impact.
- b) The purpose of the Text Amendment is to not conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project adopted for the purpose of avoiding or mitigating an environmental effect. Further, the Text Amendment [will create consistency with the existing General Plan Land Use Element Map](#). More in depth environmental evaluation will occur during specific project review for any future development.
- c) No development is proposed; therefore, there will be no conflict with such a plan.

<b>X MINERAL RESOURCES</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				X
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?				X

Comments:

a-b) The proposed Text Amendment will not result in a loss of availability of a known mineral resource that would be of value to the region and the residents of the state as the “Mineral Resources” Map in the Lompoc General Plan, adopted October 1997. No development is proposed. Future development will be evaluated on a case-by-case basis for potential impact.

<b>XI. NOISE</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?				X
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?				X
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?				X
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?				X
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?				X

<b>XI. NOISE</b>  Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?				X

Comments:

a-f) No development is proposed with Text Amendment and therefore will not expose persons to, or generate, noise levels in excess of standards established in the local general plan or noise ordinance, and it will not expose persons to excessive ground borne noise levels or result in a substantial permanent increase in ambient noise levels.

<b>XII. POPULATION AND HOUSING</b>  Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads and other infrastructure)?				X
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?				X
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?				X

Comments

a-c) The proposed Text Amendment will not induce population growth as there is no development proposed. The proposed project will not displace any housing or people, or require any replacement housing. Future development will be evaluated on a case-by-case basis for potential impact.

<b>XIII. PUBLIC SERVICES</b>  Would the project result in:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				X
b) Fire Protection?				X

<b>XIII. PUBLIC SERVICES</b>				
Would the project result in:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Police protection?				X
d) Schools?				X
e) Parks?				X
f) Other public facilities?				X

Comments:

a-f) The proposed Text Amendment will not result in substantial adverse physical impacts associated with the provision of or need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for Fire, Police, Schools, Parks, or other public services, because the project is currently within an urbanized area that is already adequately served by City services. The City has sufficient resources to provide required services.

<b>XIV. RECREATION</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?				X
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?				X

Comments

a-b) The Text Amendment does not include any development and would not accelerate substantial physical deterioration to existing neighborhood and regional parks and other recreational facilities.

<b>XV. TRANSPORTATION/CIRCULATION</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e. result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?				X

<b>XV. TRANSPORTATION/CIRCULATION</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?				X
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?				X
d) Substantially increase hazards due to a design feature (e.g. sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)?				X
e) Result in inadequate emergency access?				X
f) Result in inadequate parking capacity?				X
g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?				X

Comments

a-b) The properties would not generate more traffic because no development is proposed. Future development of the site may require traffic analysis to assure conformance with existing City standards for Level of Service.

c) The proposed project will not result in a change in air traffic patterns.

d-g) Future development will be reviewed by the Planning Commission to assure safe design of specific projects; adequate emergency access; on-site parking capacity; and support of alternative transportation.

<b>XVI. UTILITIES AND SERVICE SYSTEMS</b>				
Would the project:	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Exceed wastewater treatment requirements of the Central Coast Region of the Regional Water Quality Control Board?				X
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?				X

<b>XVI. UTILITIES AND SERVICE SYSTEMS</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Would the project:				
e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?				X
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?				X
g) Comply with federal, state, and local statutes and regulations related to solid waste?				X

Comments:

- a-c) The proposed Text Amendment will not exceed wastewater treatment requirements of the Central Coast Region of the Regional Water Quality Control Board and not require the construction of new water or wastewater treatment facilities, or expansion of existing facilities.
- d-e) [The project is located within the City of Lompoc city limits, and the City has sufficient resources to service the properties with water and wastewater facilities.](#)
- f-g) The City of Lompoc landfill has sufficient capacity to service approved use with in the city.

<b>XVII. MANDATORY FINDINGS OF SIGNIFICANCE</b>	Potentially Significant Impact	Less than significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Does the project:				
a) Have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?				X
b) Have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?				X
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?				X
