

City of Lompoc Economic Development Loan Program Guidelines

The City of Lompoc provides federal Community Development Block Grant (“CDBG”) funds for eligible economic development projects. The Economic Development Loan Program (EDLP) provides loan funds to eligible businesses with the ultimate objective of creating jobs for persons at 80% or less of area median income (AMI) as determined by the U.S. Department of Housing and Urban Development (HUD) for the Lompoc area. The EDLP can assist businesses to either create or retain jobs. The City can lend up to \$35,000 per full time equivalent (FTE) job created (see page 2 for detailed explanation).

The employer must obtain documentation from the job applicant at the time of hiring that the applicant’s income is at or below 80% of AMI for their household size. Fifty one percent (51%) of the jobs created or retained must be made available to persons at this income level at the time they are hired.

A business must be able to demonstrate that the CDBG assistance is necessary for new job creation or retention. A qualifying business can use the funds for: land or property acquisition, equipment, fixtures, and/or working capital, among other uses. Use of funds for the payment of wages related to construction, rehabilitation or installation will require the payment of Davis-Bacon Wages and compliance with Davis-Bacon Wage Related Act.

How to determine who qualifies as an eligible 'hire' for the purposes of the CDBG Economic Development Loan Program

Income is determined by a combination of income and household size, *at the time of hire*.

1. How many people live in your prospective employee's household?
2. What is the gross annual income (all income from anyone having a job) of the household?
3. If your prospective employee's household income is above the Low Income figures below, that employee may not be counted toward the employer's "Jobs Creation/ Jobs Filled" goal, which is a condition of the employer's loan agreement with the City.

Example: There are 4 people in your employee's household. Two people in your employee's household work, and their combined gross annual income is \$60,550. This household would qualify, and the job filled by that employee would count toward the employer's "Jobs Creation/ Jobs Filled" goal.

Eligible persons to hire, as determined by HUD, are individuals whose income is at 80% or less of area median income by household size as determined by HUD below:

**Number of persons
In household**

	1	2	3	4	5	6	7	8
Maximum Household Income Levels as of April 11, 2018	\$56,250	\$64,250	\$72,300	\$80,300	\$86,750	\$93,150	\$99,600	\$106,000

Income levels change annually; please be sure to use the most current eligibility criteria. Contact Community Development Division if you have any questions.
